Raghuwinder Kumar

At RK UNIVERSITY Pursuing My Computer Engineering | PYTHON DEVELOPER
Rajkot, Gujarat, India

Summary

As a third-year Computer Science Engineering student, I am deeply passionate about leveraging Artificial Intelligence and Machine Learning to solve complex, real-world problems. My academic journey is focused on building a strong foundation in Python and core AI concepts, which I apply through various university projects. Beyond my technical skills in programming and problem-solving, I am a proactive communicator who is not afraid to step into new challenges. I am actively seeking internship opportunities where I can apply my skills in a practical environment and contribute to innovative projects in the AI and software development space. I am eager to connect with professionals, mentors, and recruiters who are shaping the future of technology.
